

Job Title: Senior Designer

Department: Creative

Location: Bournemouth

Quantum is an Independent integrated Agency of 30 passionate and dedicated staff.

For over fifteen years we have created high profile national campaigns for some of the UK's biggest brands. We take a planning based, insight driven approach to creating conceptual campaigns and have our fair share of fast turnaround design work too. We take pride in all of our work and our Clients trust us to know their brands, push the boundaries of creative but always adhere to their guidelines.

We have an awesome client list, of which we are truly proud and due to continued growth are looking for a Creatively led Senior Designer.

You will be inspired and inspiring; both capable of big idea thinking and motivating those around you to deliver their best on every piece of work.

We're looking for quick and accurate artworking skills in the usual Mac based applications but more than that, we truly celebrate creative thinking and are genuinely looking for someone that backs up their skills with ideas and creative flair.

Our work spans traditional and new media, projects can be small redesigns or large-scale multi-channel campaigns. So whilst brilliant Mac skills are a given, a passion for digital would be a huge bonus. But a passion for great creative is what we're really after.

We're a collaborative bunch and have a real sense of team; to fit in at Quantum you'll need to be friendly, easy to work with, willing to help and guide others and have the kind of can-do approach that means the work comes first along with maintaining the quality of it.

That said, whilst we take our work and Clients very seriously, we're not precious about ourselves. So don't leave your sense of humour at the door!!

The Role

Senior designer reporting to lead creative

People Management

- Adopt a collaborative approach to working closely with team members – both account handlers and other creatives.
- Support lead creative in the ongoing development of team members to help them broaden their skill set.

Internal communication

- Effectively communicate across the team, maintaining a motivating and positive environment and ensuring outstanding team work
- Build relationships with colleagues throughout the Agency

Candidate Profile

Currently an experienced mid or senior level designer in an integrated agency environment with a good understanding of the FMCG and retail sectors and the following attributes:

- Excellent creative thinking and design skills
- Strong strategic understanding and ability
- You will be expected to lead certain creative, working planning and AM team
- Excellent presentation skills (writing and delivering)
- Work well under pressure
- Impeccable attention to detail
- Good time management
- Excellent communication skills
- Express ideas with clarity, confidence and logical reasoning
- Work proactively and independently, and as part of a team

Experience and Knowledge

- At least 4+ years' experience in an agency environment:
- Experience in traditional and digital design
- Stunning portfolio
- Knowledge of FMCG/retail market
- Experience of working in a below the line agency environment
- Experience working with blue chip clients and showcase to prove this
- Excellent Mac skills in Creative Suite. Premier, cinema 4d and After Effects not a must have but would be a bonus!
