

Job Specification

Job Title: Junior Designer

Department: Design Studio

Location: Bournemouth

Job Brief

We are looking for a Junior Designer to join our growing creative team in creating engaging designs and visuals according to requirements. You will work under the supervision of a Senior Designer to produce high quality work.

In this role, you should be highly creative and have a sharp eye for details. If you're passionate about design and eager to learn more, we'd like to meet you.

Requirements

- Fluent in the Adobe Creative Suite - particularly Photoshop, Illustrator and InDesign.
- A passion for creating stunning visuals for a range of clients
- Strong organisational and communication skills
- An understanding of concept art techniques
- Strong team working skills
- Killer attention to detail
- Time management and multitasking abilities
- Creativity skills and a keen problem-solving aptitude

Strong portfolio which shows experience with a range of programs and materials
1+ year agency experience is preferable but not essential. Let your portfolio do the talking!

Nice to have:

- 3D experience desirable (3DS Max, Maya, Blender)
- Video editing/production experience in Premiere Pro is a bonus
- After Effects a plus as well
- A desire to learn new skills and push the boundaries
- Up to date knowledge of the latest design trends

A bit about us:

Quantum is an Independent integrated agency of 30 passionate and dedicated staff.

For almost twenty years we have created high profile national campaigns for some of the UK's biggest brands. We take a planning based, insight driven approach to creating conceptual campaigns. We take pride in all of our work and our clients trust us to know their brands and push the boundaries of creativity.

This is an exciting time to join – the culture here is inspiring, bursting with creativity, fun and down-to-earth.
